

**CATALOGUE  
OF D·M·C  
ARTICLES**

" ULYSSES' TRAVEL " one of the six tapestries made with D-M-C threads from Rémy HETREAU's drawings and especially conceived for the " BRUSSEL's INTERNATIONAL FAIR " in 1958.

In this event, D-M-C obtained the " GRAND PRIX " and won a Gold Medal and a Silver Medal.

# Washing instructions for coloured embroidery

## GENERAL HINTS

Never wash embroidery together with starched or stiffened fabrics. If the embroidered articles are starched or stiffened, soak them first in water at about 175° F. (80° C.) to remove the starch or stiffening, then rinse several times.

## NORMAL WASHING

- 1 - **Wash in luke warm soap or detergent suds.** Use detergent recommended for colours, but in very small quantity, according to the instructions. Avoid chemicals recommended for pure white. Do not worry if the water becomes coloured. Keep on washing and rinsing in plenty of water.
- 2 - **Rinse several times in luke warm water, then in cold water.** When washing with soap in hard water, revive the colours in water containing 6 or 7 teaspoons of white vinegar per quart of water, then rinse in plain cold water.
- 3 - **Never leave damp embroidery folded or in a heap.**
- 4 - **Roll the embroidery in a towel and squeeze without wringing, then spread out to air.**
- 5 - **Iron the embroidery on the wrong side between two clean towels with a warm, not hot, iron.**

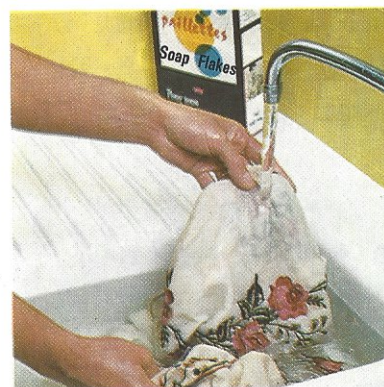

## SPECIAL CASES

The high quality of D·M·C fast colours also makes it possible to:

- a - **Boil embroidery** in soap or detergent suds. However, it is essential not to pack the embroidery tightly in the boiler, not to mix it with starched linen and not to squeeze or press it out through a wringer before a thorough rinsing.
- b - **Dry clean embroidery** (benzine, trichlorethylene, etc.). Grease or mineral oil stains may be dry cleaned. Wash and rinse well immediately.

Obtainable on special order:

**WHITE** and **BLACK**: width numbers 4 and 12.

Other **COLOURS** from **SHADE CARD W 114**: width numbers 8 and 20.

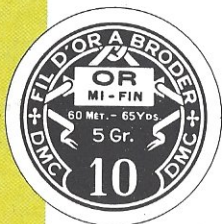

## D·M·C GOLD EMBROIDERY THREAD

SEMI-FINE GOLD

(FIL D'OR A BRODER)

ART. 280

BOX OF 10 REELS OF 5 GRAMMES (3/16 OZ.) EACH

*The gold thread is as suitable for hand and machine embroidery as for crochet or knitting. It brings sparkle, relief and chic. For machine embroidery, crochet and knitting it should be worked together with a soft or brilliant cotton.*

D·M·C Gold thread is:

- supple,
- sliding,
- extensible, (but always keeps its shape),
- lastingly brilliant (does not tarnish),
- heatproof up to 180/200° C (356/392° F),
- washable in 45/50° C (113/122° F) warm water without being affected in its brilliancy by the suds,
- easy to iron either dry or damp,
- easy to dry-clean with benzine.

In machine embroidery, use the gold thread as bobbin thread (it is recommended not to use the thread director to wind the gold thread on the bobbin to avoid any damage of the metal), the needle thread being a yellow cotton thread. Lay the reverse of the fabric turned upwards, and stitch as usual.

To facilitate embroidering on a fabric without design, it is advisable to lay on the reverse of the fabric a thin paper on which the motive will have been previously transferred. Stitch on the paper and remove it afterwards.

Size number : 10

## D·M·C SILVER EMBROIDERY THREAD

SEMI-FINE SILVER

(FIL D'ARGENT A BRODER)

ART. 281

BOX OF 10 REELS OF 5 GRAMMES (3/16 OZ.) EACH

*The silver thread is as suitable for hand and machine embroidery as for crochet or knitting. It brings sparkle, relief and chic. For machine embroidery, crochet and knitting, it should be worked together with a soft or brilliant cotton.*

D·M·C Silver thread is:

- supple,
- sliding,
- extensible, (but always keeps its shape),
- lastingly brilliant (does not tarnish),
- heatproof up to 180/200° C (356/392° F),
- washable in 45/50° C (113/122° F) warm water without being affected in its brilliancy by the suds,
- easy to iron either dry or damp,
- easy to dry-clean with benzine.

In machine embroidery, use the silver thread as bobbin thread (it is recommended not to use the thread director to wind the silver thread on the bobbin to avoid any damage of the metal), the needle thread being a light-grey cotton thread. Lay the reverse of the fabric turned upwards, and stitch as usual.

To facilitate embroidering on a fabric without design, it is advisable to lay on the reverse of the fabric a thin paper on which the motive will have been previously transferred. Stitch on the paper and remove it afterwards.

Size number : 10.
